IGIL Admin Dashboard User Guide

Version: 1.0

Audience: Admin users

Applies to: `app/admin`

1) What this dashboard is for

The Admin Dashboard helps you manage:

- Students and their profiles
- Enrollments and approvals
- Programs and program sessions
- Certificates and download unlocks
- Gallery images
- Your admin account settings

Use the left sidebar to move between sections:

- Dashboard
- Students
- Enrollments
- Programs
- Sessions
- Certificates
- Gallery Management
- Settings

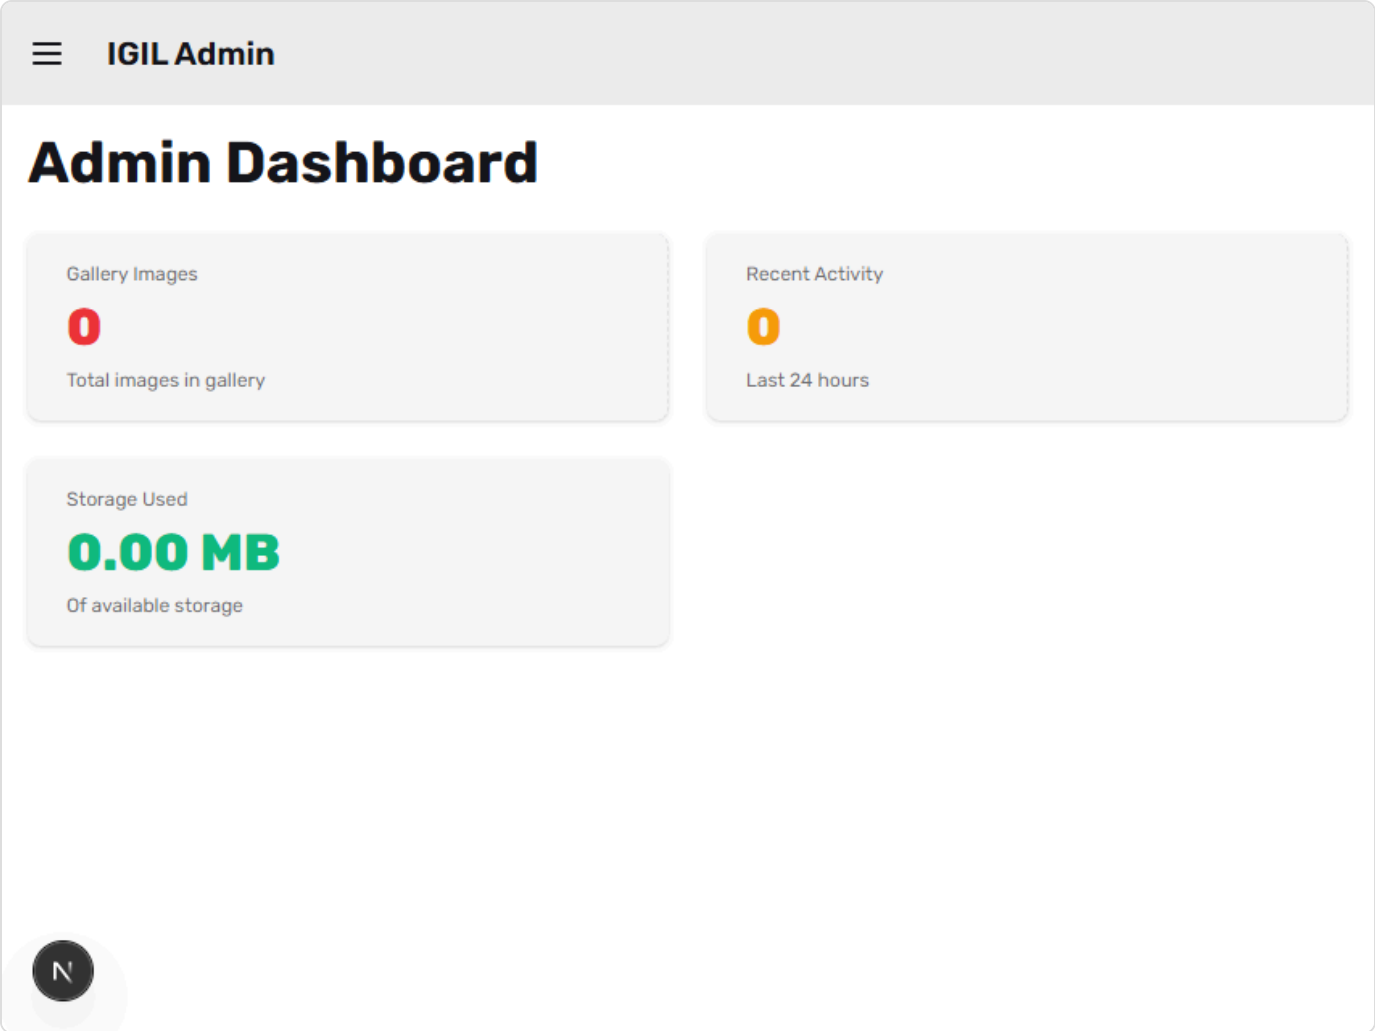
2) Dashboard overview

Path: `/admin/dashboard`

The dashboard shows quick stats:

- Gallery Images: total image count
- Recent Activity: images added in the last 24 hours
- Storage Used: total gallery storage

Use this page as your quick health check before deeper actions.

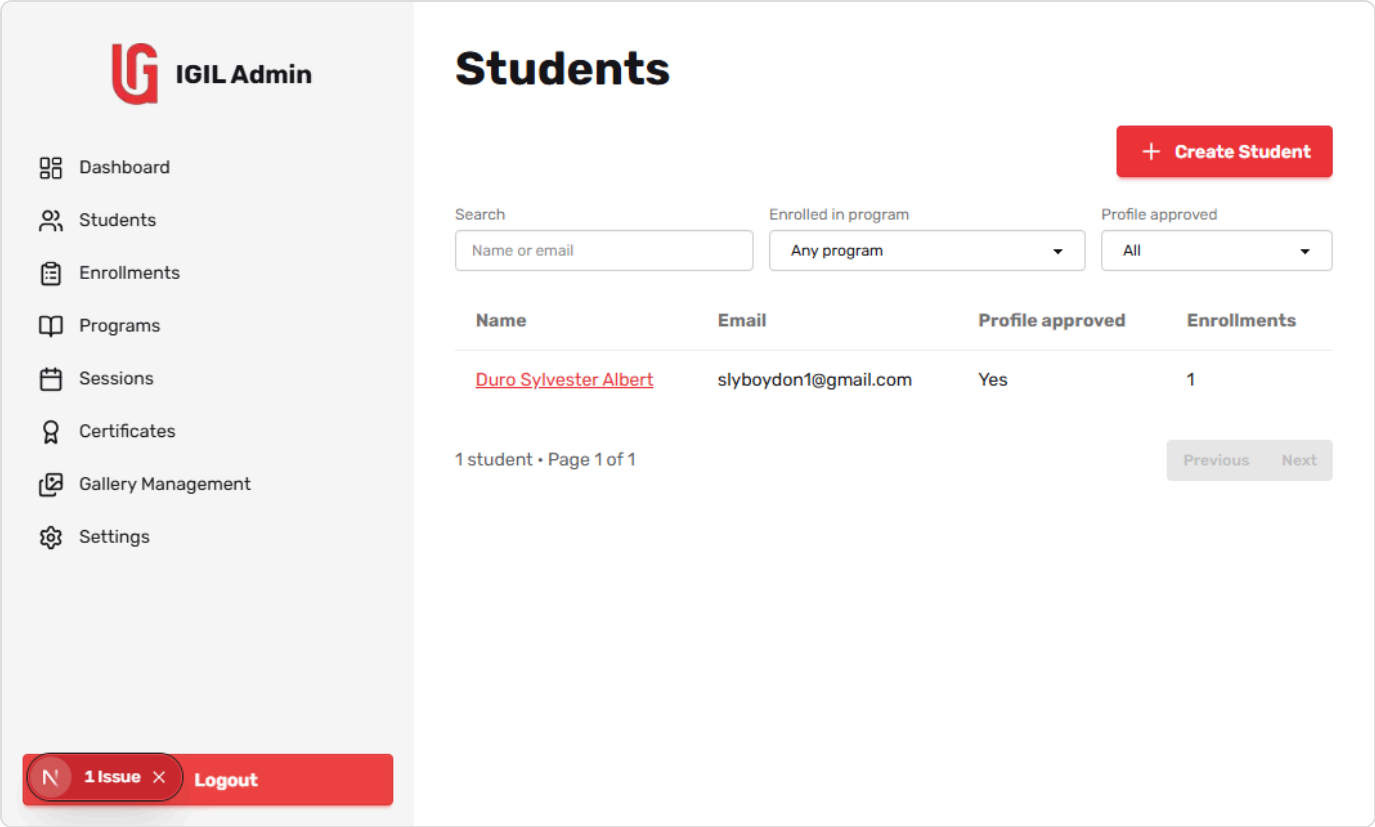


3) Students

Path: `/admin/students`

What you can do

- Create a student manually
- Search students by name/email
- Filter by program
- Filter by profile approval status
- Open a student's profile page



Create a student

1. Click Create Student.
2. Fill in:

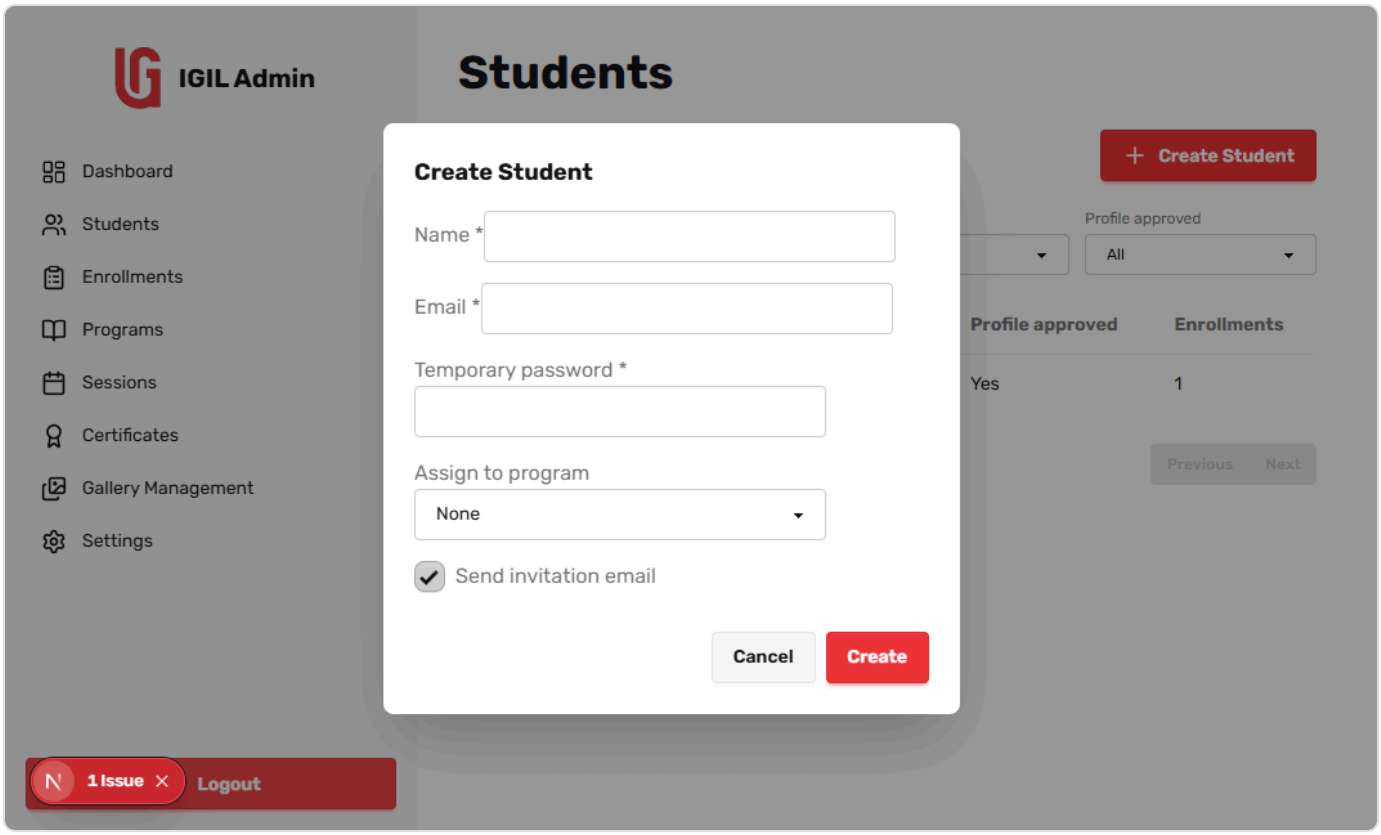
- Name
- Email
- Temporary password (minimum 8 characters)

1. Optional:

- Assign to a program
- Enter program name for invite email
- Keep Send invitation email checked if needed

1. Click Create.

Expected result: the student appears in the list and can be opened from name/email.



Student profile page

Path: `/admin/students/{id}`

Use this page to review student details and enrollment status summary.

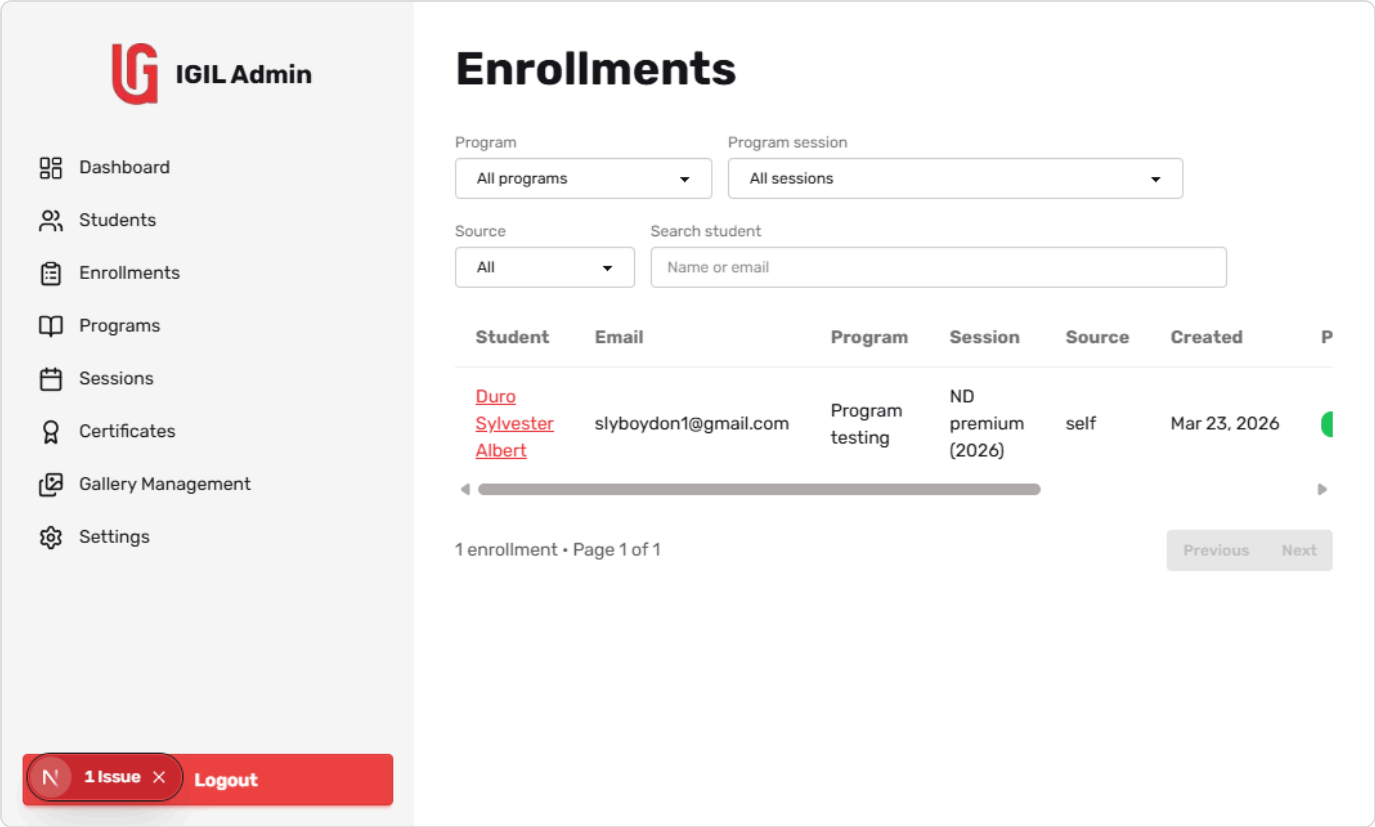
4) Enrollments

List path: `/admin/enrollments`

Detail path: `/admin/enrollments/{id}`

What you can do from the list

- Filter by Program
- Filter by Program session
- Filter by Source (`invited` or `self`)
- Search student by name/email
- Open Details for any enrollment

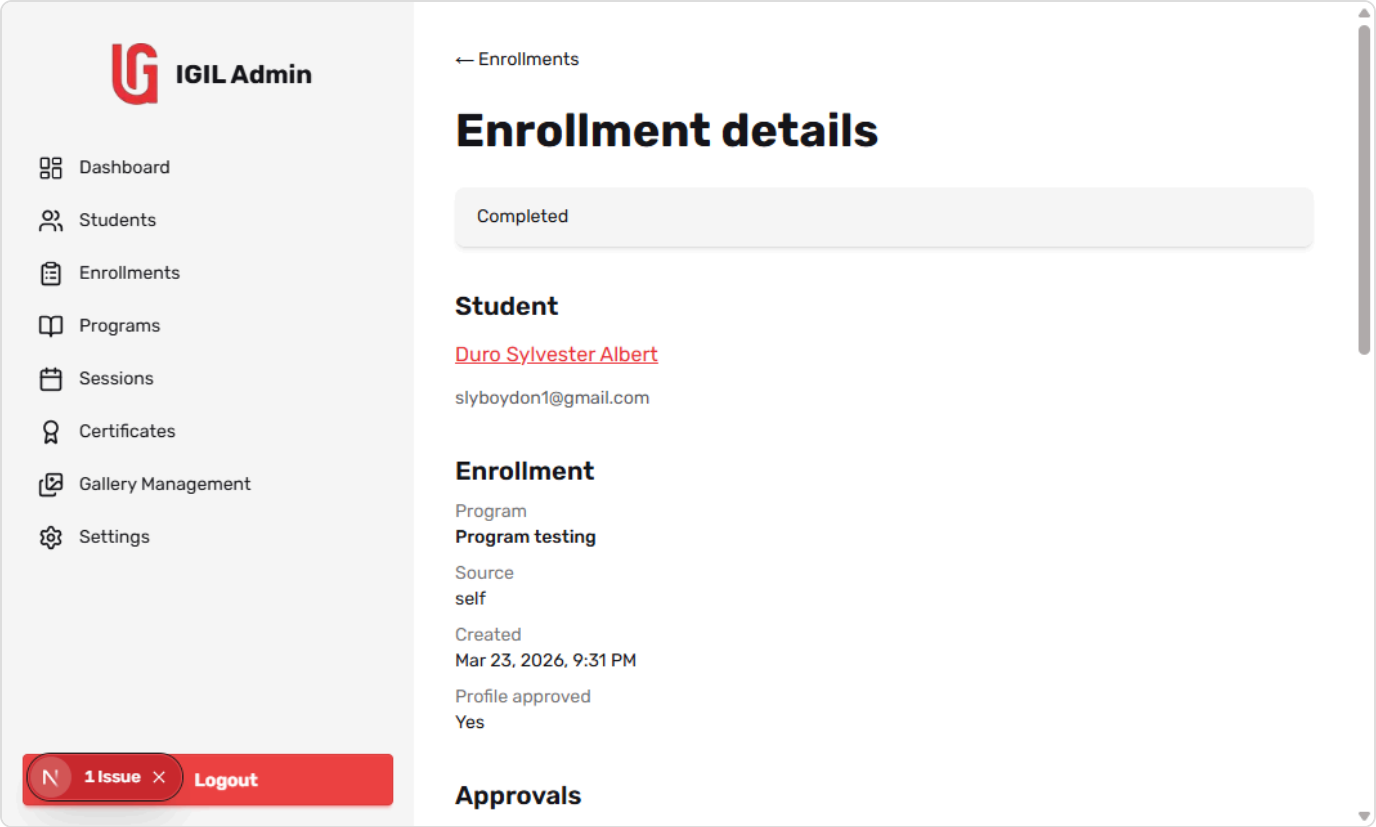


Enrollment detail workflow (most important)

On the detail page, process enrollments in this order:

1. Confirm Student and Program.
2. Set Program approved if requirements are met.
3. Set Payment approved after payment verification.
4. Assign a Session (required before completion).
5. Check Mark enrollment complete.

Expected result: enrollment status reaches completed state.



Certificate actions from enrollment detail

After completion, a Certificate section appears.

You can:

- Upload certificate file (PDF/image)
- Set certificate number
- Set issued date
- Save certificate details

5) Programs

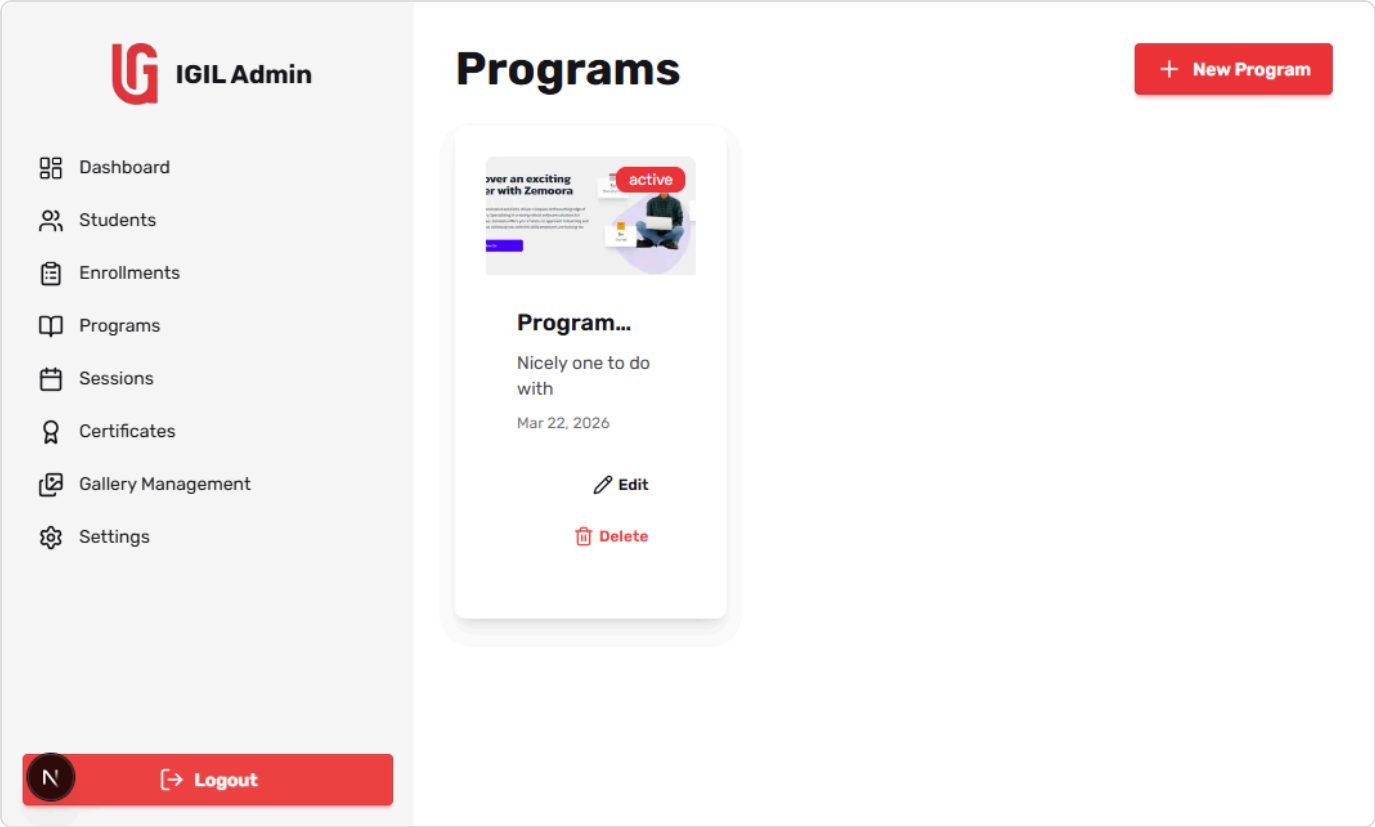
List path: `/admin/programs`

Create path: `/admin/programs/new`

Edit path: `/admin/programs/{id}/edit`

What you can do

- Create a new program
- Edit program details
- Delete a program

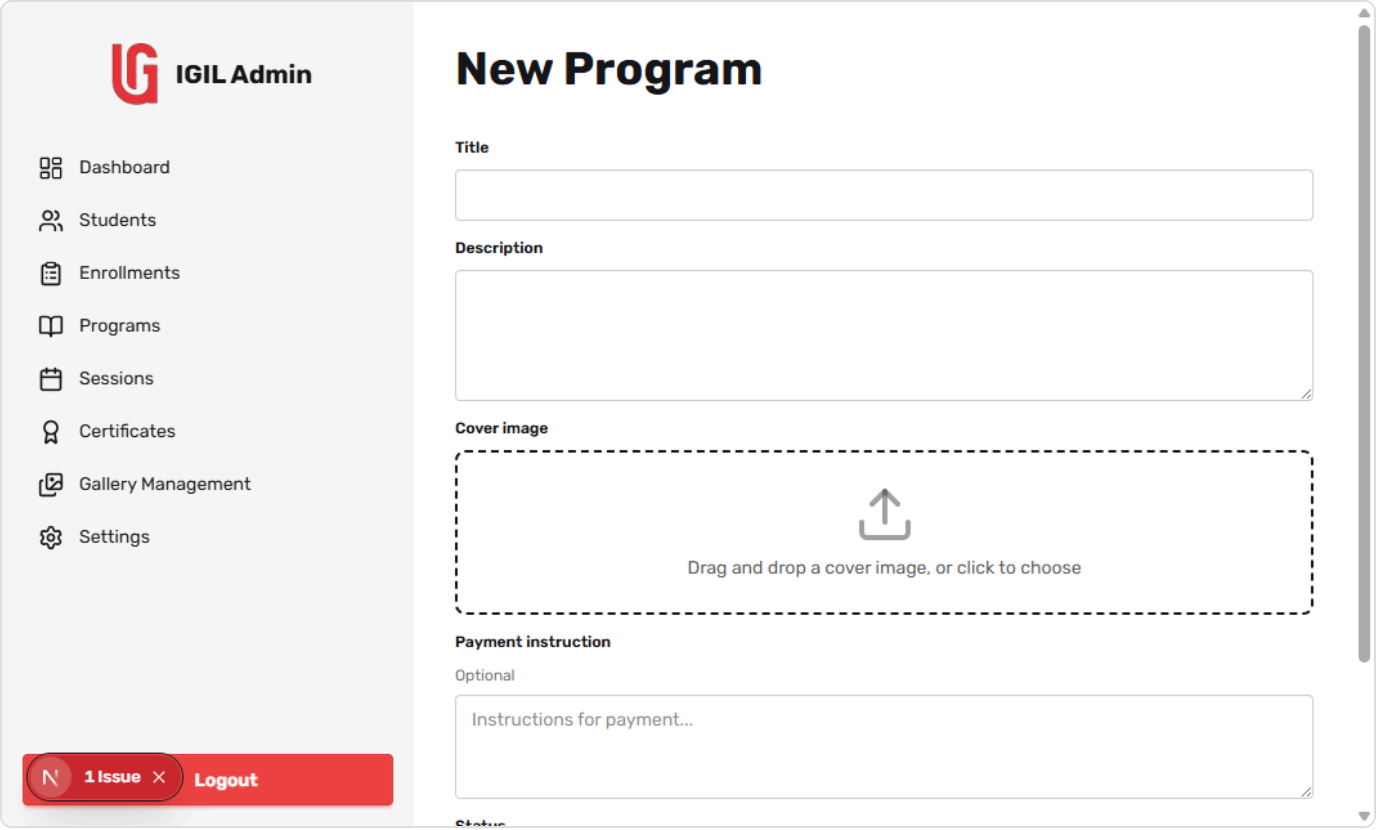


Create or edit a program

Fill:

- Title (required)
- Description (required)
- Cover image (optional upload)
- Payment instruction (optional)
- Status (`draft` or `active`)

Click Create or Update to save.



Delete a program

1. Click Delete on a program card.
2. Confirm deletion in the prompt.

Use caution: deleting affects program availability and related operations.

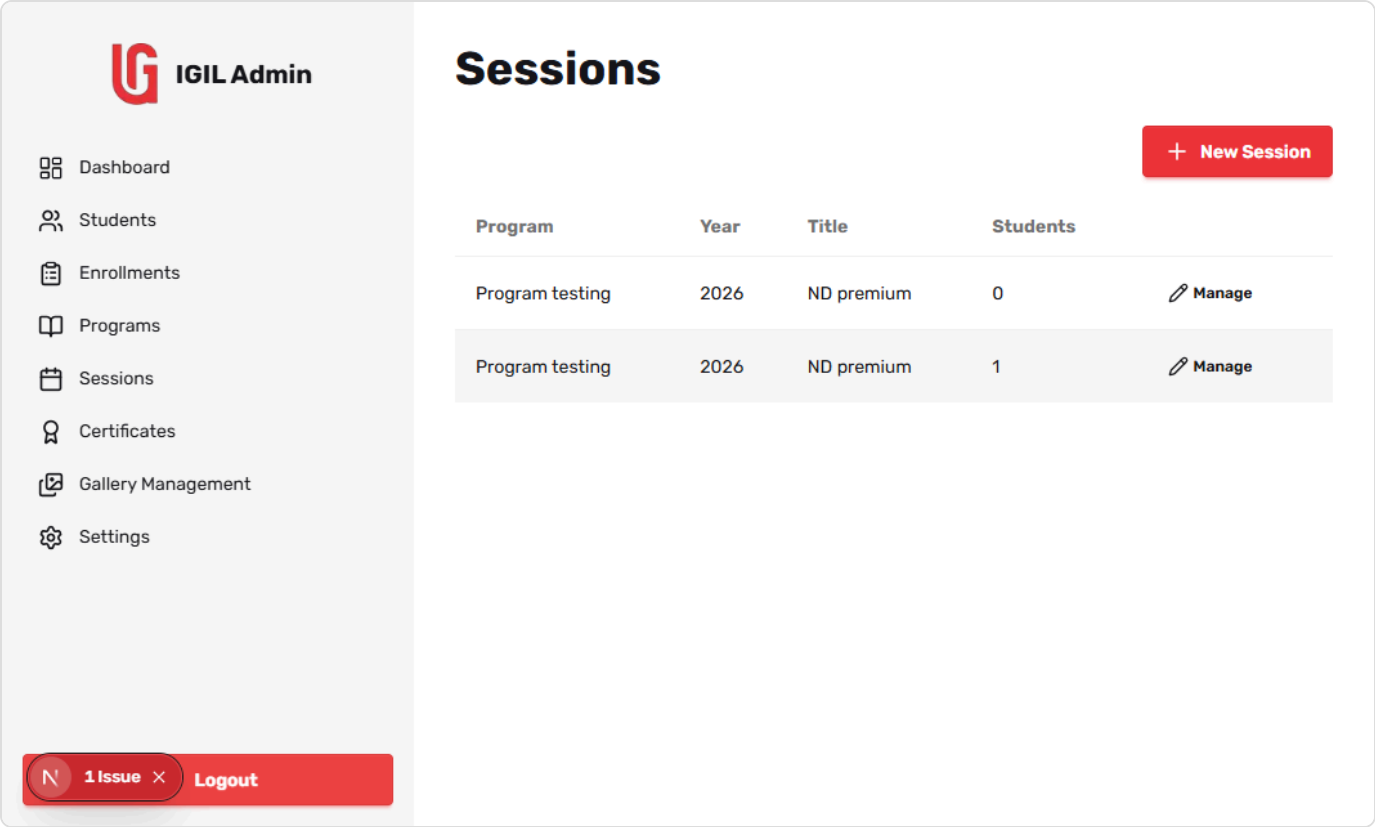
6) Sessions

List path: `/admin/sessions`

Manage students path: `/admin/sessions/{id}`

Create a session

1. Click New Session.
2. Select Program.
3. Set Year and Title.
4. Click Create.



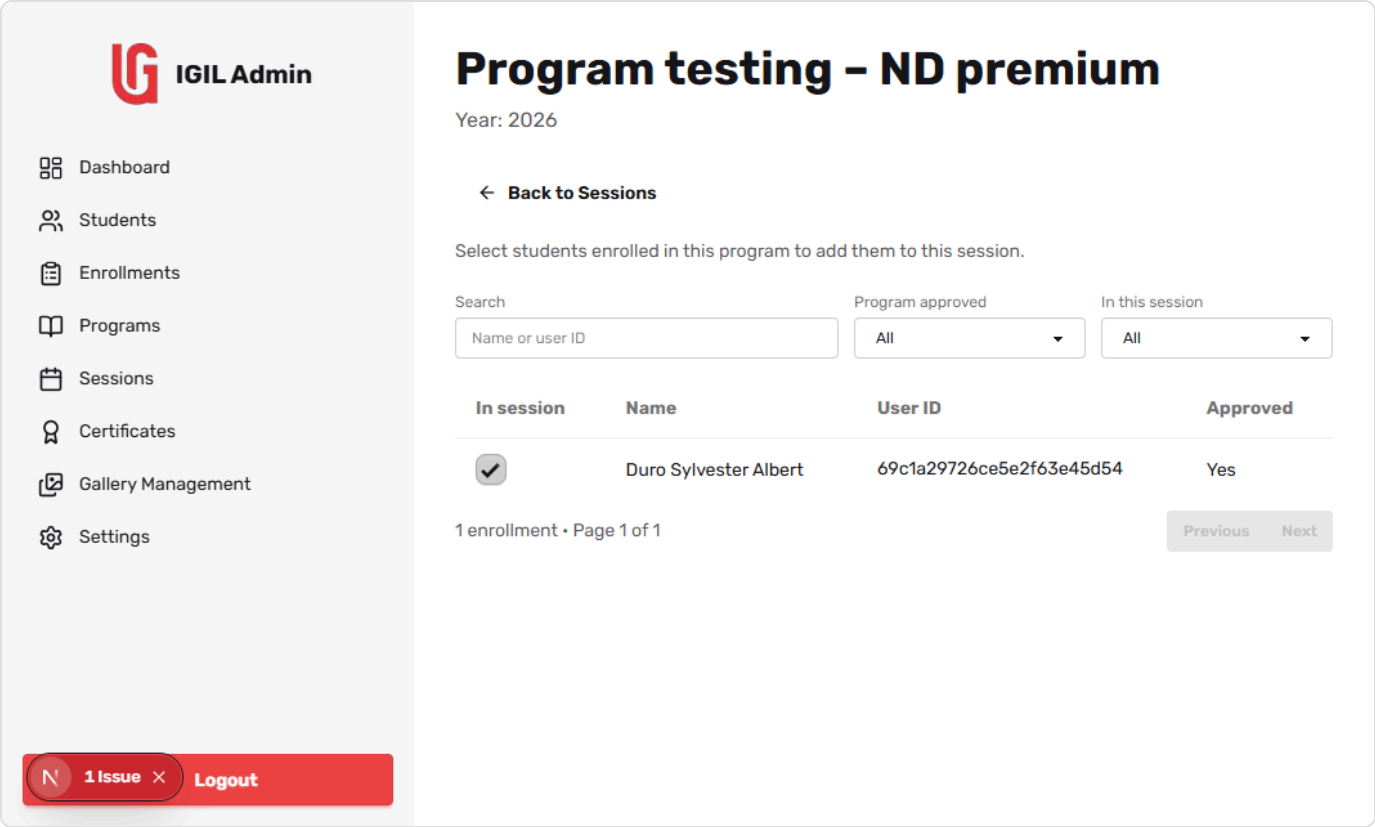
Manage session students

1. Click Manage on a session row.
2. On the session page:

- Search by name or user ID
- Filter by Program approved
- Filter by In this session

1. Check/uncheck In session per student.
2. Click Save changes.

Expected result: session membership updates and session student count refreshes.

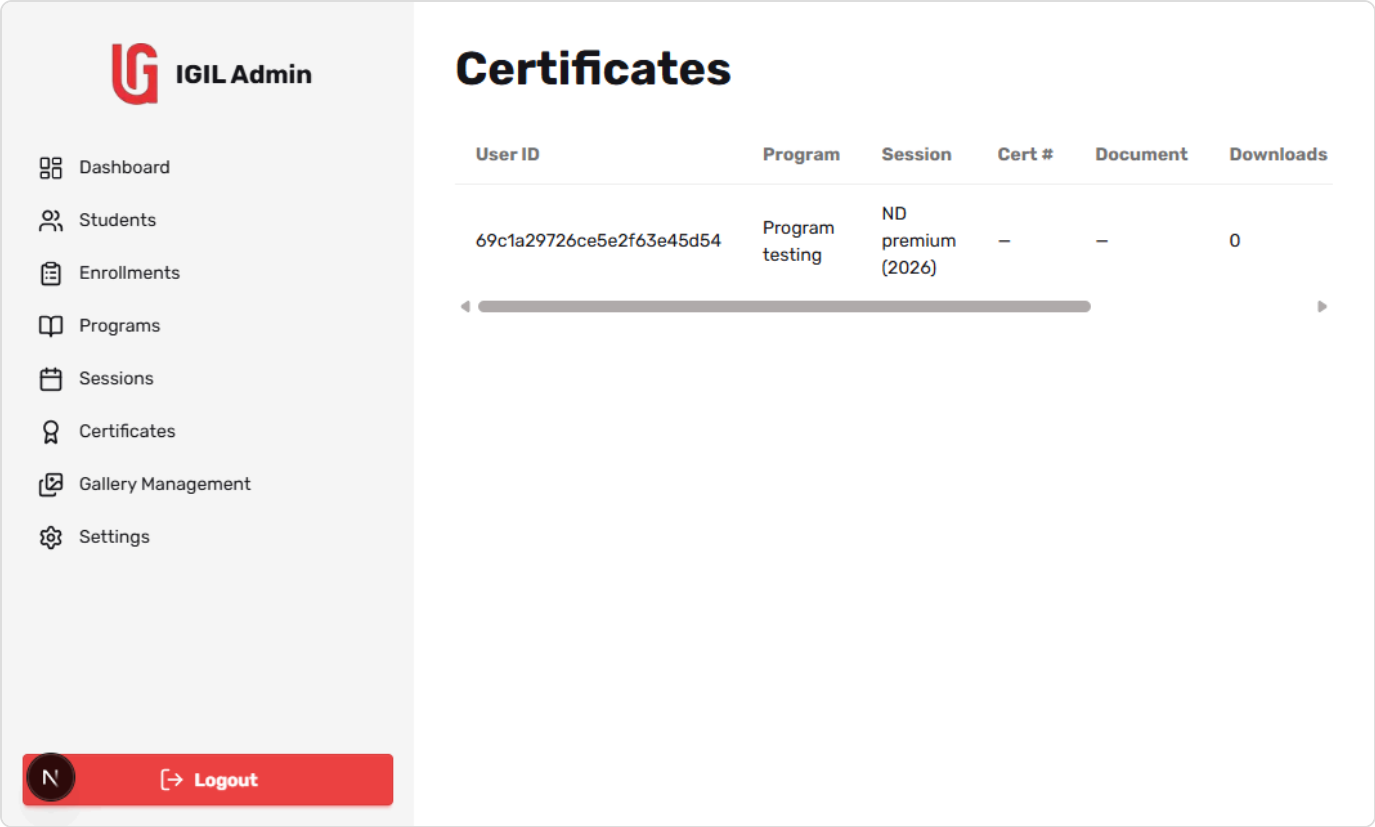


7) Certificates

Path: `/admin/certificates`

What you can do

- View certificate records by user/program/session
- Review certificate number and file link
- See student download count
- See unlock expiry
- Unlock student downloads for 24 hours



Unlock workflow

1. Locate the certificate row.
2. Click Unlock 24h.

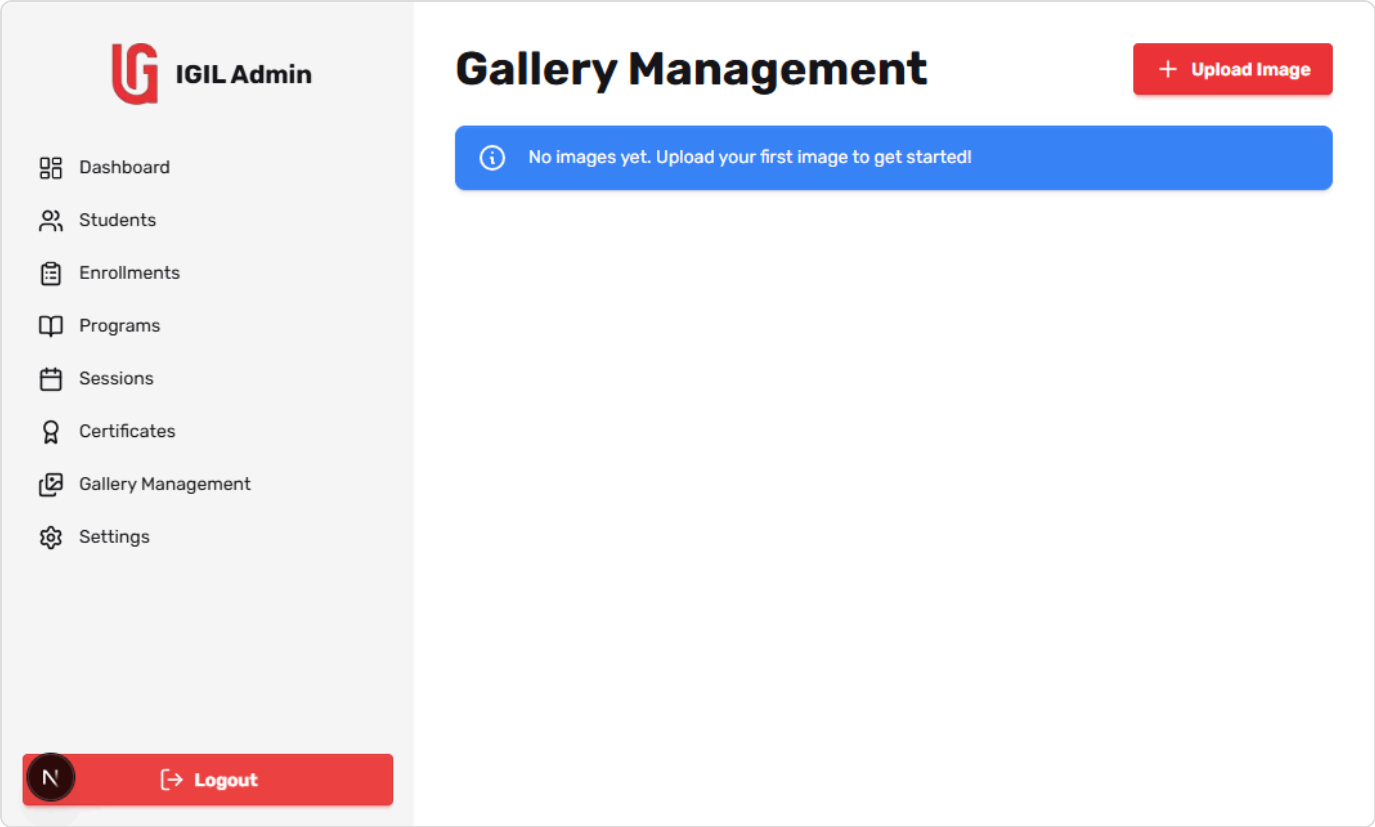
Expected result: unlock end time updates and student can download during the unlock period.

8) Gallery Management

Path: `/admin/gallery`

What you can do

- Upload new images
- Edit image metadata
- Delete images
- Browse with pagination



Recommended flow

1. Upload image from Upload action.
2. Verify title/description and thumbnail.
3. Use edit action to fix metadata.
4. Use delete only when content is obsolete.

9) Settings

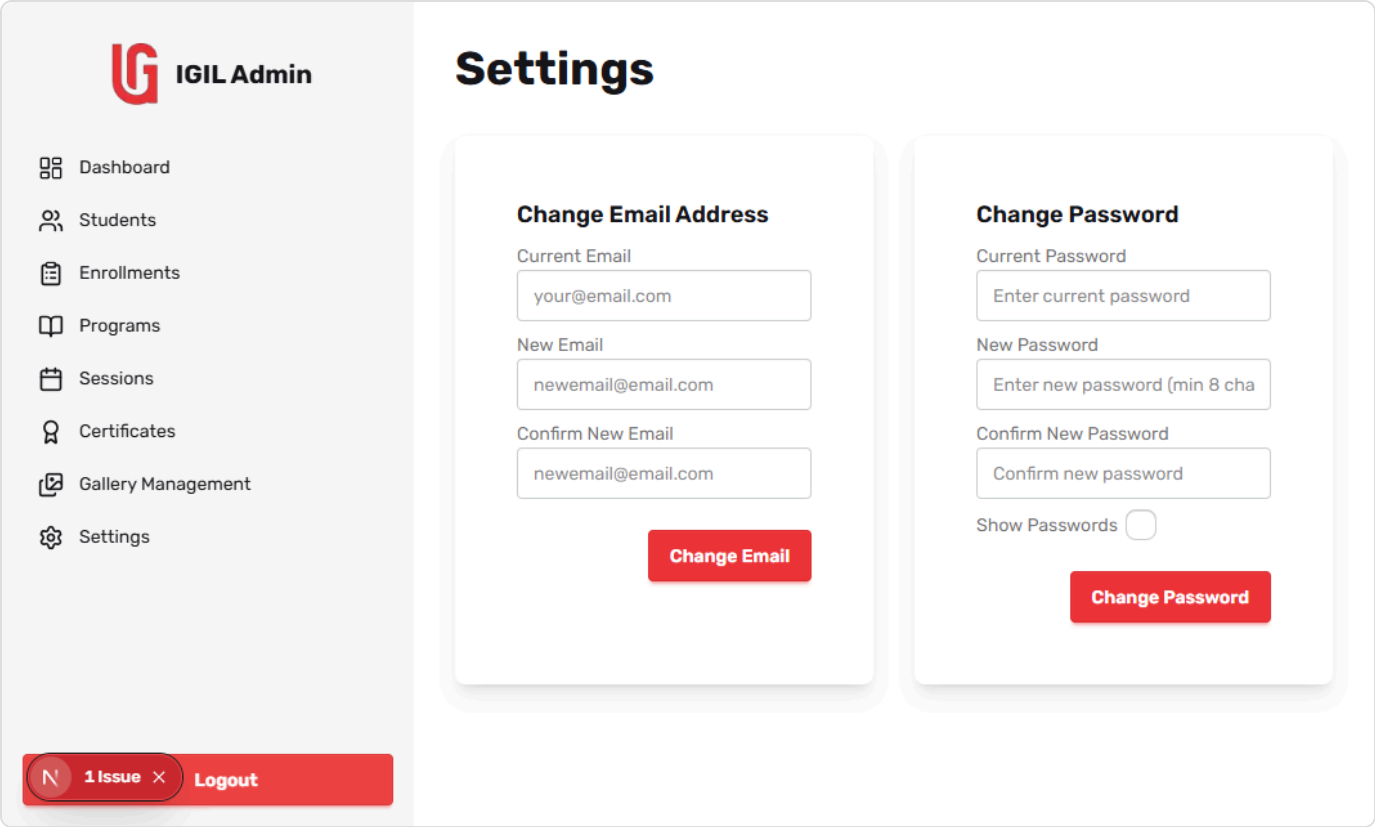
Path: `/admin/settings`

Change email

1. Enter current email.
2. Enter new email and confirmation.
3. Click Change Email.

Change password

1. Enter current password.
2. Enter new password and confirmation (minimum 8 characters).
3. Click Change Password.



10) Common messages and what they mean

- No students/enrollments/sessions yet: no data for current state; create records first.
- No records match current filters: clear some filters or search terms.
- Program and title are required: missing required session fields.
- Assign a session before marking complete: set session first in enrollment detail.

11) Best-practice checklist

- Approve in sequence: profile -> program -> payment -> completion.
- Always assign session before marking completion.
- Keep program titles and session titles clear and consistent.
- Add certificate number and issue date immediately after upload.
- Use filters before editing to avoid modifying the wrong record.

12) Screenshot index

Store screenshots under: `docs/admin-guide/screenshots/`

Planned files:

- `01-dashboard.png`
- `02-students-list.png`
- `03-create-student-modal.png`

- `04-enrollments-list.png`
- `05-enrollment-detail-approvals.png`
- `06-programs-cards.png`
- `07-program-form.png`
- `08-sessions-list.png`
- `09-session-students-manage.png`
- `10-certificates-table.png`
- `11-gallery-management.png`
- `12-settings-forms.png`
